

Katleho Lebesse

Tech Enthusiast & Aspiring Developer

Kaylebesse@gmail.com | github.com/kaylebesse | linkedin.com/in/kaylebesse | South Africa

Professional Profile

Motivated tech enthusiast and aspiring developer with a strong foundation in engineering studies and a growing specialisation in artificial intelligence, modern web development and UI/UX design. Certified as an AI Professional and currently pursuing further studies in technology, I combine analytical problem solving with a user-centred design mindset. I learn quickly, work well in teams and enjoy turning ideas into clean, accessible digital products.

Technical Skills

- **Development:** HTML5, CSS3, JavaScript, React fundamentals, responsive web design, Git & GitHub
- **AI & Emerging Tech:** Prompt engineering, generative AI tools, AI-assisted coding, ChatGPT/Copilot workflows, AI ethics & responsible use, data literacy
- **UI/UX & Design:** Figma, wireframing & prototyping, design systems, accessibility (WCAG), user research, AI-assisted design tools
- **Digital & Productivity:** Microsoft 365, Google Workspace, digital collaboration tools, basic data analysis

Soft Skills

- Communication • Teamwork & collaboration • Problem solving • Adaptability
- Time management • Attention to detail • Customer service • Continuous learning

Projects

Personal Portfolio Website

Designed and built a responsive personal portfolio presenting my profile, skills, projects and contact details, with a modern accessible interface and downloadable CV.

Technologies: React, TypeScript, Tailwind CSS, Figma

AI Study Assistant Chat Tool

A conversational assistant that summarises study notes, generates practice questions and explains concepts, built through prompt-engineering experiments and an AI API integration.

Technologies: JavaScript, AI/LLM APIs, prompt engineering, REST

Retail Stock Tracker Dashboard

A simple stock and sales tracking dashboard inspired by my retail shadow-working experience, showing stock levels, low-stock alerts and daily sales summaries.

Technologies: HTML, CSS, JavaScript, Chart libraries, Google Sheets data

Work Experience

Retail Shadow Worker (Work Experience)

Shadowed retail floor and till operations: customer service, stock replenishment, merchandising and point-of-sale support, building professional workplace discipline and communication.

Work Readiness Programme Participant

Completed structured training in digital and professional skills, workplace communication, CV and interview preparation, plus AI tools and emerging technologies for the modern workplace.

Education & Certificates

- **National Senior Certificate (Matric)** — completed
- **N3 Certificate: Engineering Studies** — completed
- **AI Professional Certificate** — artificial intelligence fundamentals, AI tools and responsible use
- **Work Readiness Programme** — digital skills, professional skills, AI tools and emerging technologies
- Currently pursuing further studies in technology
